The largest stock ever in Stanford and the best to be found in Central Kentucky, embracing about twenty five different styles from the leading manufacturers in the United States. Persons contemplating buying a vehicle this Spring should select the same or place their orders at once; for at this season all manufacturers of first-class vehicles are invariably over-run with orders and if the vehicle wanted is not on inands, it will require from four to eight weeks to obtain it; four weeks being required to make, finish and dry a firstclass job ready for shipment, under the most favorable circumstances.

All work sold by me will be found to be such as I represent them, unless have been deceived myself, and in that event the purchaser will be fully indemnified. Call and examine my stock and I will do my best to please you in style, quality and price. You can get as good vehicles from me and at as reasonable prices as you can obtain anywhere else and get a guarantee on them, besides that is worthless to you when buying away from home. Reepectfully,
